|--------------------------|----------------------|--------------|--------------|
| • HTML & CSS | • React JS | • Node JS | • GIT |
| • JavaScript | • Typescript | • Express JS | • POSTMAN |
| • Bootstrap | • Zustand | • MongoDB | • Figma |
| • Material UI | • React-Query | • Docker | • Jira |
| • React-Bootstrap | • Redux | • HubSpot | • Angular 16 |

Professional Experience

SENIOR SOFTWARE ENGINEER | Qentelli Solutions Private Ltd

Feb 2022 – present

Client: Internal Project – In House

Project: Q-LMS

Environment: React JS, Typescript, Tanstack Query (React-Query), React-Bootstrap, Context API, Node JS

Description: The Learning Management System (LMS) project aims to develop a robust, scalable, and user-friendly platform that facilitates the administration, documentation, tracking, reporting, and delivery of educational courses, training programs, and learning and development initiatives.

Responsibilities:

- Built responsive and interactive UIs using React JS and React-Bootstrap.
- Implemented efficient data fetching and caching using React-Query.
- Ensured code quality and type safety with TypeScript.
- Created user flows, wireframes, and prototypes in Figma.
- Designed and developed reusable React components.
- Optimized components for speed and scalability.
- Ensured consistent design and functionality across different browsers.
- Collaborated closely with backend developers, UX/UI designers, and product managers.
- Wrote unit tests and debugged issues for smooth user experiences.
- Documented component usage, code practices, and design guidelines.

Client: Deloitte

Project: STAFFIT

Environment: HTML5 & CSS, Bootstrap, JavaScript, Angular 16, Typescript

Description: Staff scheduling systems are a component of resource management and provide the ability to identify and assign the right person to the right client assignment.

Responsibilities:

- Addressed and resolved **production issues**, ensuring continuous application stability.

- Implemented **new features** within the **existing custom framework**, enhancing functionality and user experience.
- Executed **bug fixes** for a seamless user experience.
- Performed **version migration** for Angular applications, ensuring compatibility with the **latest features**.

Client: Dental-Q

Project: Ortho-Q

Environment: React JS, Typescript, Context API, Zustand Material UI, React-Bootstrap

Description: Ortho-Q is a dental application that connects patients seeking dental help with medical practitioners. Through the platform, dental history can be shared, quick online appointments can be scheduled, and the ability to search for the best available doctors nearby with respect to a given medical condition.

Responsibilities:

- Developed **scalable React.js web app** with Typescript, translating designs into efficient code.
- Created reusable components, optimizing speed and scalability while following best practices.
- **Led a 2-person Front-end team**, ensuring project alignment and milestones.
- **Mentored** new members, nurturing Front-end skills and project contributions.
- Integrated APIs, including complex **Payment systems**, enhancing functionality.
- Presented tailored **Proof of Concepts**, visualizing proposed solutions.
- **Troubleshooted** code, refining functionality and performance.
- **Collaborated** with designers and project managers to understand the requirements and implement features.
- Worked with the QA team to **resolve defects** and improve application stability.

SOFTWARE ENGINEER | JAVA R&D PRIVATE LIMITED

Nov '2020 – Jan '2022

Client: BSI

Project: BSI

Environment: React.js, React-Bootstrap and Redux

Responsibilities:

- Developed responsive websites using React JS, Bootstrap, and a **Custom Library**.
- Generated innovative ideas and **Proof of Concepts** aligned with project requirements.
- Enhanced company website by incorporating new features and functionalities.
- Assisted senior team members in **debugging** code, **enhancing website performance** and user experience.

SOFTWARE DEVELOPER | IOSYS SOFTWARE INDIA PRIVATE LIMITED

Aug '2019 – Jan '2020

Project: Internal

Environment: HTML & CSS, JavaScript, jQuery, HubSpot CMS

Responsibilities:

- Developed **responsive websites** using HTML & CSS, JavaScript.
- Developed responsive websites templates using, ensuring compatibility across major browsers using **HubSpot CMS**, jQuery.

PERSONAL PROJECT

Project: Dev Camper

Environment: Node JS, Express JS, MongoDB, POSTMAN

Description: An application that allows users to search for learning courses on the web. Courses can be uploaded by administrators and publishers.

Responsibilities:

- Created **RESTful** web services using Node.js, Express.js, and MongoDB.
- Developed **middleware and controllers** to manage data flow.
- Constructed **CRUD APIs** to meet project specifications.
- Implemented **JWT authentication** for enhanced security.

Certifications

- Accenture Developer Virtual Experience Program by Forage.
- The Bootstrap 4 Bootcamp by Udemy.
- Post Graduate Certificate in Full Stack Development by UpGrad.

Education

- Bachelor of Engineering in Electronics and Communications
Rajiv Gandhi Technical University (RGTU) – CDGI, Indore, MP **Aug 2014 - May 2018**
- Mahatma Gandhi Convent Higher Secondary School
ISC - Shajapur, MP **June 2012 - March 2014**
